## School:

Developing a collaborative Academic Plan framed by the HIDOE Learning Organization is the foundation for a forward focused Academic Plan. An effective Academic Plan utilizes existing school resources to improve and/or introduce new ideas that accelerate the school community’s knowledge about ending achievement gaps and providing equitable services for all students. A forward focused Academic Plan clearly describes a school’s Theory of Action that incorporates the following: 1) analyzing data to explain achievement gaps; 2) incorporating measurable outcomes that inform a school how to close an achievement gap; and 3) applying contextual and community measurements and assessments.

Starting from a comprehensive needs assessment, schools design measurable outcomes from the study of organizational, instructional, and student support systems. The measurable outcomes are implemented and improved through Plan, Do, Check, Act (PDCA) cycles and systemized by leading indicators.

## HIDOE Learning Organization

**Pipeline of Emerging Ideas:** To prepare for emerging trends, advancements and changes that impact education, ideas are tried and vetted by our schools and teams, some will advance to support the core.

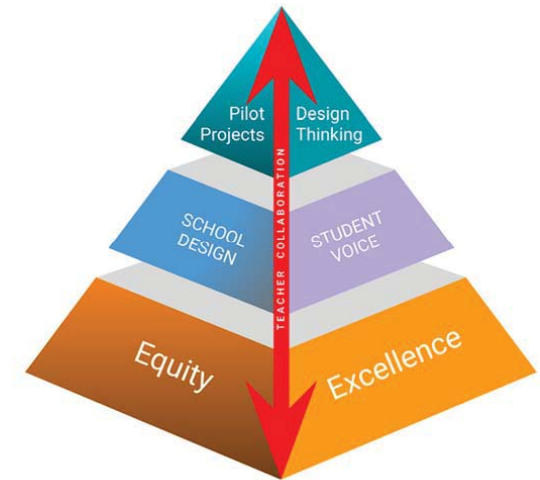

- The Pipeline of Emerging Ideas is linked to the HIDOE 2020-30 Strategic Plan (page 5).

**Innovation in Support of the Core:** New strategies and systems for delivering teaching and learning. High-Impact strategies: School Design, Teacher Collaboration, Student Voice.

- The Academic Plan incorporates School Design and Student Voice for **Innovation in Support of the Core** (pages 3-4).

**Teaching & Learning Core:** Focus: equity and excellence in core curriculum and supports.

- The Academic Plan is structured by the HIDOE Learning Organization, and it is founded on the **Teaching & Learning Core** (page 2).

## Innovation in Support of the Core: School Design and Student Voice

Describe here your complex/school contexts for School Design and Student Voice.

Ka’ala Elementary students deserve to thrive with options and opportunities. With 85% of our school community qualifying for free/reduced lunch, there are economic hardships which affect school performance and attendance. Also, 25% of our student population are English Learners, causing grade level proficiency in both reading and math more difficult to attain. Ka’ala Elementary School has implemented five different priority areas in order for our students to be successful.

Describe here your current and continuing initiatives that will further advance your 2020-21 School Design and Student Voice.

Ka’ala Elementary School’s Priority Areas were implemented in school year 2019-2020 and support our students thriving with options and opportunities:

- Improving Student Achievement
- Special Education Support
- English Learner Support
- Multi-Tiered Systems of Success
- Technology Innovation Practices

Describe here your Conditions for Success for School Design and Student Voice

Ka’ala Elementary’s School’s community, inclusive of all administration, teachers and staff, will provide options and opportunities for students to thrive. This guiding belief is how we organize our School Design and the Infrastructure of support needed to actualize our efforts. Important to us is that students and families feel connected to our school. Therefore, we provide personalized ways to engage or different audiences. We recognize that a multi-modal approach provides us the best means to meet the needs of our community.

## Pipeline of Emerging Ideas: Pilot Projects and Design Thinking

When HIDOE references innovation and emerging ideas, the Department is responding to important mindsets that embrace new ideas, replace dated practices, and strive for better solutions. Therefore, the Learning Organization must be prepared to uphold innovative learning environments that elevate a school’s collective work, expand capacity to improve, and continuously advance student learning.

The HIDOE 2030 Promise Plan will be drafted to help school communities open conversations about the *Pipeline of Emerging Ideas*.

School Ideas for Innovation and Pilot Projects <i>SW 6</i>	Conditions for Success
<p><i>Please describe your school’s ideas around innovation and pilot projects.</i></p> <ol style="list-style-type: none"> <li><b><u>ZSpace Implementation:</u></b> The students of Ka’ala Elementary School deserve to thrive with options and opportunities. The ZSpace initiative, funded by district resources, provides the students of Ka’ala Elementary School access to Augmented Reality/Virtual Reality (AR/VR) learning experiences through the use of both laptop and desktop programs. Enhancing grade level curriculum, ZSpace provides 3D experiences which both motivate and encourage students to participate hands-on. Leadership opportunities arise as Ka’ala Elementary School students are ambassadors of the ZSpace program; they will train to teach others about the ZSpace experience at our school.</li> <li><b><u>Read to Me Parent Engagement:</u></b> School year 2019-20 was the inaugural Read to Me parent series, where parents participated in seven 2.5 hour sessions in order to learn the strategies of read-aloud. Through their sessions, the parents are provided books, reading strategies, and community resources to promote reading to their children. For example, one session was spent at the Wahiawa Library, where parents were given a guided tour and explanation of the different library offerings. As a culminating activity, each parent participant read a book aloud to their child’s class.</li> </ol>	<p><i>Please describe your conditions for Success:</i></p> <ol style="list-style-type: none"> <li><b><u>ZSpace Implementation:</u></b> A successful ZSpace implementation at Ka’ala Elementary School would be an effective integration of the AR/VR programming with grade level curriculum. The program would be used to enhance student interest and inclusion. Another condition of success would be a comprehensive ambassador program, where student leaders would be able to address communication and sharing of the ZSpace Program at Ka’ala Elementary School.</li> <li><b><u>Read to Me Parent Engagement:</u></b> Successful implementation of the Read to Me parent component would be increased parent participation in literacy activities at Ka’ala Elementary School. School parent events would include read-aloud sessions, supported by Read to Me graduates encouraging the read-aloud strategies to the school community. Opportunities for read-aloud volunteers will become available, where our Read to Me graduates could read books to participating classrooms.</li> </ol>
